

## Special Missions Offering for May, 2024: Todd Luke's Cistern Ministry

Todd & Maria Luke's mission is to work with U.S. Presbyterian church partners to build family-owned rainwater catchment tanks that collect God's free gift: the rain that falls onto the tin roofs of a family's home. They work within the Campechano Presbytery, in Mexico.

### How does it work?

Indigenous Ch'ol Presbyterian laymen organize families to work together to build family-owned cisterns that collect rainfall. During the process, these Mexican partners teach useful construction skills, demonstrate the value of partnership, pray together, and share the Good News in a casual

and natural manner. Generally, American partners work with Mexican partners to lighten the physical load.

Through this project, hundreds of families have easy access to millions of gallons of rainwater — and in the process, the Gospel is shared. We pray the Holy Spirit will empower the hearts of all involved to be assured of the grace of Jesus Christ.
