Celebrations and Concerns: November 15, 2026

For the safety of all US military personnel, do not use any form of electronic social media to post details of their service! You should not refer to them by their "go by" name, or mention their military rank, or where they are serving. You should not post any photographs that might reveal where they are, or what they are doing.

It is the policy of Alamance Presbyterian Church to respect the privacy of its congregation and its extended families. We only publish news about those who have given permission to share health information publicly. If we do not have permission to give details about a medical condition, **we will not print those details**. If we do not have permission to refer to someone by name, **we will not print that name**.

Please lift up Brandon & Reed (Pomeroy) Joyner in prayer. (Jennifer Pomeroy Jones is Reed's mother.) On November 5, 33-year-old Brandon had a stroke, from a small blood clot that went to his brain. There should be no lasting side effects from the stroke. Now they know he has congestive heart failure. Brandon has a long road to recovery. The family would appreciate your prayers.
